

## **“Kodomo egao-genki Project” = “Children Smile Supporting Project”**

We will strive to bring back smiles on the children's face in disaster-stricken area, and we hope their vitality would enliven the whole city again!

Our Non Profit Organization (NPO), “Miyagi-Sendai Kodomo-no-oka”, has started a project called “Kodomo egao-genki project”, to explore what we can do for the children in disaster-stricken area. This project will be run in association with „Planning Kai- Atelier Jiyugakko“. Our members, who work in children related projects, have come together with a goal to support the children in disaster-affected area, mainly through 3 types of activities :

- 1) Support in terms of restoration of material aid
- 2) Support in the form of monetary donation funds
- 3) Support by arranging concerts and doll shows in the disaster-affected areas and shelter areas.

We have planned this project with a long-term view - we will continue to work for years, even after the media reporting on disaster has settled down.

For the details of the project “Kodomo egao-genki project”, please refer to:
